

Project: “Kinderpolizei”

In collaboration with the local police station of Seiersberg the 3rd graders conducted the project “Kinderpolizei” (“kid-cops”).

Aim of this project was to understand the tasks of the police: to serve and to protect.

Further goals of this project were: to know the emergency numbers, how to call correctly in case of an emergency or accident, to call the police for help

The children were enabled to tell their parents about mistakes i.e. to drive too fast or not using the safety belt. Act as a role model for younger kids.

The cops visited our school and did some exercises with the pupils.	At the police station the personnel showed off their equipment and the kids were allowed to train how to place an emergency call.
They also tested the prison.	

The kid-cops and the real cops.

Finally they even get some goodies.

Two out of all our „kid-cops“

kid-cop Martin signed his id – card.

kid-cop Nico signed his id – card.

Thanks go to the police in Seiersberg. We have learned a lot.
