

Pirka Elementary School/Austria: Newsletter of November

The great piano concerto/Concertino

The 2nd graders went to a piano concerto in the Minoritensaal on November 15th, 2006. It was anything but boring for the children, they learned much one worth knowing about the piano. In a funny way they learned about classical piano pieces. A couple of children even were allowed to play a part in the performance by being invited to the stage.

"The great piano concerto" of and with Markus Simsa

The children got to know the piano exactly.

The children of the second class were invited to the stage.
